

## For Immediate Release

### Hyland Software honors Shaw Industries Group, Inc. with RealSolutions Award

*Shaw Industries Group Inc. and Imaging Solutions and Services Inc. join forces to migrate to new Hyland OnBase platform.*

Memphis, TN, October 1, 2010 – Imaging Solutions and Services Inc., nationwide system integrator and outsourcing provider of document imaging business process improvement technologies, is working with Shaw Industries Group Inc to upgrade a legacy document imaging system to the Hyland OnBase Enterprise Content Management suite.

Shaw Industries Group Inc, the world's largest carpet manufacturer and a leading floor covering provider, was looking to migrate its document management system to a more flexible platform that would allow them to quickly implement the new system, transition the large archive of digital images and data, efficiently integrate the new system into their IT infrastructure, and also effectively training their existing staff to manage the new system. The conversion will reduce the cost to capture and manage vital business records while also providing an improved platform for future applications and advanced functionality, such as workflow. After a comprehensive evaluation of the leading ECM providers and software alternatives, Shaw selected Imaging Solutions and Services, Inc and Hyland Software Inc.

"Shaw is a perfect example of how a company can take an existing legacy system and implement an upgrade to improve how they do business", says Kelly Green, Business Development Manager, responsible for leading the upgrade initiative for Imaging Solutions and Services Inc. "It is very fitting that Hyland should recognize the progressive steps Shaw has taken to further their business and successfully leverage the OnBase suite to take some huge steps forward. We are very proud of Shaw and are honored to have been selected to partner with them on this important initiative.", says Green.
