Hyland Software and Imaging Solutions and Services, Inc. Form Partnership

OnBase Authorized Solution Provider relationship will focus on providing ECM services to various industries

CLEVELAND – June 14, 2005 – Hyland Software, Inc., developer of the OnBase[®] enterprise content management (ECM) software suite, has formed a value added reseller (VAR) partnership with Imaging Solutions and Services, Inc. (ISSI), a national leader in providing business process outsourcing (BPO) services and document imaging solutions and supplies. The OnBase Authorized Solution Provider relationship will focus on providing ECM solutions in the Financial Services, Insurance, Healthcare, Government, Education, Commercial and Industrial industries.

“Imaging Solutions and Services is excited to add the Hyland OnBase product to its portfolio of products focused on delivering Client-Focused, Results-Driven[™] business process management improvements,” says Jay R. Barrow, founder, president and CEO at ISSI. “To meet the needs of our clients and to continue to offer the greatest value and business effectiveness tools to them, ISSI completed an exhaustive study of the ECM software market and found that OnBase offers excellent scalability, extensive functionality and impressive integration alternatives. The OnBase product is a wonderful addition to ISSI’s comprehensive portfolio of market-leading imaging products and services.”

Headquartered in Memphis, Tennessee, ISSI is a national solutions provider with numerous offices throughout the United States. Founded in 1995, ISSI has grown through a number of acquisitions to expand BPO services and franchise into the large format document conversion services arena.

To support the needs of its users, Hyland partners with a team of Authorized Solution Providers comprised of VARs, systems integrators and OEM firms. Hyland works with these Solution Providers to provide customers with high quality ECM solutions. In addition, to further increase

the scope of integrated document management solutions, Hyland also partners with complementary hardware and software organizations whose solutions work in conjunction with OnBase.

Says Bill Priemer, Chief Operating Officer and Executive Vice-President at Hyland Software, "Due to ISSI's presence in numerous vertical industries, including Commercial / Industrial, Financial, Healthcare, Government and Education, this partnership should accelerate the acceptance and use of OnBase by companies of all sizes in these industries. We're very pleased to have the opportunity to partner with ISSI."

About Hyland Software

Hyland Software, established in 1991, is a leading provider of rapidly deployable enterprise content management software. Hyland develops OnBase, enterprise-class software that combines integrated document management, business process management and records management in a single application. OnBase allows organizations to manage digital content, including scanned paper documents, faxes, print streams, application files, electronic forms, web content, multi-media files, and emails. OnBase is used by businesses and government agencies to automate business processes, reduce the time and cost of performing important business functions, improve organizational efficiency and address the need for regulatory compliance through the management, control and sharing of digital content with employees, business partners, customers and other constituencies. Visit www.onbase.com for more information.
