

Kodak Capture Pro Software

**Simplify scanning. Automate indexing.
Maximize connectivity.**

Make Your Paper Powerful

You deal with forms, documents, records, and more, and paper isn't going away. Capture Pro Software turns your paper documents into business advantage by streamlining information capture. You get accurate information faster to drive more efficient business processes, better decision-making, and superior customer service.

Handle paper more productively

Capture Pro helps you quickly convert batches of paper documents into information you can use.

- Intelligent Job Select takes advantage of specific patch code separator sheets to automate job switching and profiles
- Supports searchable PDF, PDF-A, compressed color PDF, PDF bookmarks, fast Web view, and others
- Scan once and get color/bitonal or grayscale/bitonal images. Enhance OCR from black-and-white images while retaining color images for archiving

Simple to use, simple to integrate with your business environment

Send smarter information to Enterprise Content Management (ECM) systems, **Microsoft SharePoint**, and secure FTP to simplify workflow and processes.

System Output Destinations are available to help you extend the capability of your Capture Pro Software by providing the ability to output batches to a number of different industry-standard formats.

Maximize efficiency with accurate capture and streamlined workflow

Intelligent features such as exception checking, advanced indexing, and expert extraction get information into your business processes faster.

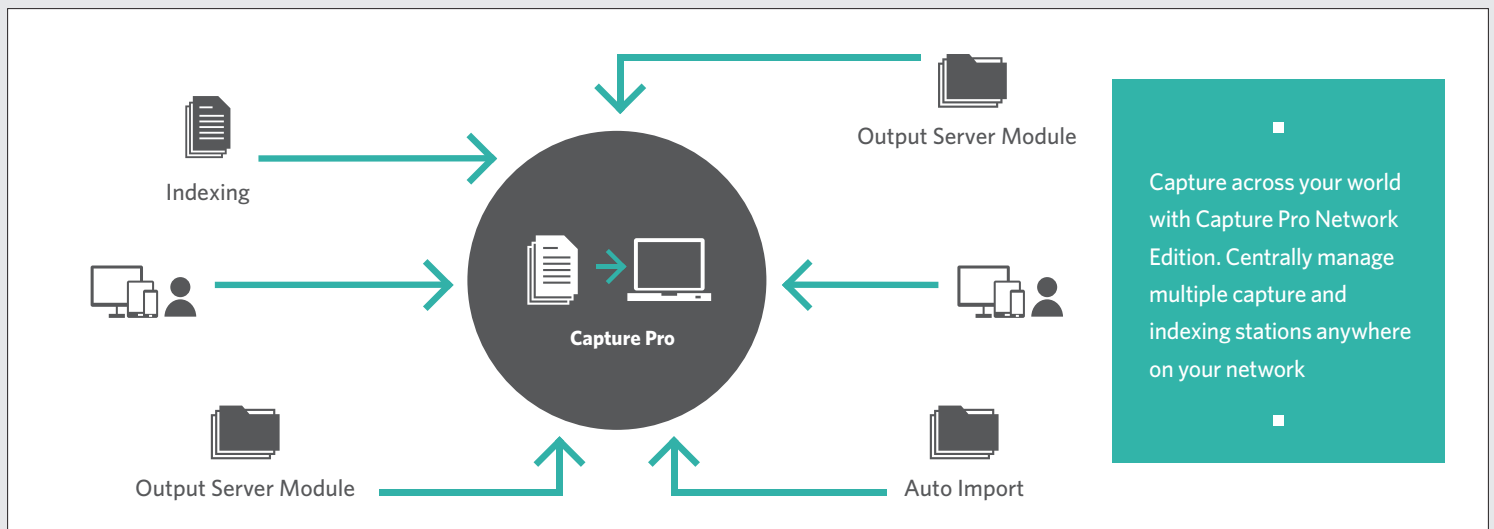

- Improves output accuracy and productivity by sending batch statistics directly to databases
- Intelligent Barcode Reading produces the most accurate data extraction results and takes complexity out of the set-up process
- Flexible mark detection accurately detects marks and populates the corresponding index fields with results

Reliable image quality, reliable operation

Capture Pro automatically corrects and validates to ensure that you get quality images and information every time.

- Data entry indexing protects data integrity and guards against entry errors
- Streamlined database lookup boosts accuracy and speed by ensuring captured index fields are correct
- Intelligent Quality Control automatically flags questionable images and optimizes image quality without rescanning
- Intelligent Exception Processing ensures immediate validation of forms so any missed information at the point of transaction is identified and fixed

Scale from desktop capture to high-volume operations

Grows with your capture needs—from a single department to complex, high-volume enterprise requirements—all with the same familiar, easy-to-use interface for all scanners.

Capture Pro Software Limited Edition

- Make your paper powerful immediately with software supplied with many Alaris Scanners

Capture Pro Software Network Edition

- Centrally manage multiple capture and indexing stations anywhere on your network
- Remote administration and batch monitoring

Capture Pro Software Auto Import Edition

- Import image files from MFPs and other sources via network folders
- Can run as a service; no operator needed

"We needed software which could be run on a multi-location basis and cater for the fast integration of different size businesses. The Network Edition version of Capture Pro is ideal to do this."

- Rob Allen, TechTrek

Productivity. Assured.

Only we and our authorized partners offer essential and advanced services that ensure the optimal integration of **Kodak** Capture Pro Software into your business processes, as well as the ongoing assurance of productivity throughout the life of your investment.

With Startup Assistance, your team can be productive immediately. With Software Assurance, your team can remain productive using the latest technology via software updates, version upgrades, and access to exclusive support resources.

Solving real-world problems.

Better customer service

County social service case workers use auto import and barcode indexing to have faster access to case information.

Simplified operations

European financial services firm lowers costs and simplifies administration with centralized job set-up, license distribution, and software installation with Capture Pro Network Edition.

Lower costs, fewer errors

Healthcare organization slashes manual entry with barcode recognition on patient records and autofill forms.

50% higher efficiency

Service bureau cuts data entry time in half with barcode scanning and autopopulation of fields, enhancing accuracy and eliminating need to manually key in data twice.

System Requirements
